

DESCENDANT LIST

This is a straight list of descendants from which you can determine your own lineage. All the children of parents are listed under the number succeeding that of the parents. Each child in turn has its own children similarly listed.

Family Trees for each individual can be found on the Biographies page, together with biographical notes and photographs. Such details, have been or will be included wherever possible, but only for deceased ancestors.

It is interesting to note the repetition of Christian names over the generations, and also, where a child dies shortly after birth, the same names were often used for subsequent children.

My sincere thanks to my cousin Fernanda Rossetti who supplied much of the data included here. I shall be glad to receive more biographical details for inclusion. (JM July 2005)
